

New Jersey Local Information Network and Communications System (NJLINCS)

NOTIFICATIONS FOR PUBLIC HEALTH INFORMATION & EMERGENCIES

through the Local Information Network Communications System (LINCS)

The Somerset County Local Information Network Communications System (LINCS) connects public health and healthcare professionals, community partners, and other organizations to the most up-to-date routine and emergency health alerts on a 24/7/365 basis through email.

There are 6 main Health Alerts:

Information	Updates
Advisories	Alerts
Recalls	Trainings

Examples include:

- Infectious Disease Reports
- Health Advisories
- Clinical Guidance
- Food & Drug Recalls
- Emergency Notifications (disaster, cold/heat advisories)
- Health Education
- & More!

STAY INFORMED!

Public health emergencies can take many different forms, and one of the best ways to be prepared is to **stay informed**.

Organizations that may benefit from receiving LINCS messages:

- businesses
- daycares/schools
- healthcare providers
- hospitals
- community organizations
- first responder agencies
- local government
- public works
- veterinarians
