

Mayors Wellness Campaign

New Jersey Health Care Quality Institute's Mayors Wellness Campaign (MWC) is a statewide community health initiative in partnership with the New Jersey State League of Municipalities.

The MWC is a program that gives mayors tools and strategies to champion healthy and active living and to improve the overall health of their towns. When mayors promote healthy living they can drive community-wide change.

Mayor Neena Singh and her Montgomery Township Wellness Team are offering dynamic new services and events throughout 2024 to strengthen the physical and mental health of our community. Please see below:
